Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and deosbstruent properties, proocuing for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life-giving fluid has been vitated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and spirits, and brings back a bright colour to the pal id complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mercurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Gout, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

DR. JAYNE'S ALTERATIVE is compounded from carefully selected drugs; free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.

CAFE RESTAURANM DE CATALANES. Corner of Cangallo and San Martin. The new proprietors of this well known establishment in order to raise the establishment to its former rank and meet the demands of their numerous clients, have determined to append a restaurant, with all the necessary comfort and attentive service, which will be duly inaugurated THURSDAY 17th inst; there will be a special entry by the Calle Cangallo, The new owners are no novices in the management of a first-rate restaurant: they are well known in B. Aires and the public has appreciated their services when one was owner of the Cafe Colon and the other managed the culinary department of the Hotel de la Paix; the Cafe will also comprise the confiteria department, fiambreria, pasteleria &c, the owners will satisfy demands for banquets, weddings, balls, ambigus etc, and all services to private houses. There will also be a large luncheon table with cold and hot viands, all kinds of sandwiches, meat, pates, etc, empanadas etc, wines and beer. The new owners of the Cafe Catalanes recommend their establishment to their friends, their clients and to the public in general.

THE PRINCES' VISIT.

The English papers received by the Patagonia bring rather pleasant reflections on the visit of the English Princes to the Plate, and the great attentions paid them during their sojourn in Montevideo and Buenos Ayres have tickled the fancy of some of our London colleagues, who know comparatively nothing about this country.

In the subjoined extract from a London paper our readers will not fail to notice the remark that 'It is more than hinted that in this part of the world (the Plate) is to be found the real settlement of the Irish question.' This remark carries all the greater weight since of late we notice all the English and many of the Continental papers pay greatly increased attention to affairs in the Plate, and we for one believe that in fourteen years hence the great Rothschild scheme, which now is as, absurd as it is ridiculous, will yet, without the aid of the Rothschilds or other millionaire bankers, be realized spontaneously, and by the silent current of a progress which marks this country for its own. The following is the extract:—

From the long reports and editorials in the Buenos Ayres "*Standard*", it is evident that the Princes Albert Victor and George of Wales met with a splendid reception from their grandmother's subjects in South America and other dwellers in the Argentine Republic. Though the Queen and the Prince of Wales had directed that they were not to appear anywhere officially as princes of the blood, this difficulty was surmounted, and the young Princes were made to feel that in no part of the world has Queen Victoria more loving and faithful subjects than in South America. At Monte Video they were entertained at a ball by her Majesty's representative, and the British residents gave them a garden party at the Prado, while at Buenos Ayres the Royal visitors were treated to what is described as "the most costly and magnificent ball ever seen in Buenos Ayres." The latter was given by the British residents, and was attended by President Roca and by all the foreign and Argentine Ministers. The ball took place in the Operahouse, the pit of which was boarded level with the stage and covered with white "duck". Vast mirrors divided the proscenium from the pit. The ensemble is described as marvellously effective. On their part the Princes have acquired the good opinion of the Argentine public, and the only lament in the papers is that their Royal Highnesess are not of more mature years, so that they might carry with them from South America knowledge likely to be useful in the unravelment of knotty economic questions. It is hardly expected that they can in their brief visit obtain any idea of the immensity of the Pampas and the Plata—"large enough to swallow European kingdoms and all the rivers of the Old World put together"—where there is so much room for the overplus population of Great Britain. It is more than hinted that in this part of the world is to be found the real settlement of the Irish Question. The Princes will be improved by travel and discipline, and this training will make them useful servants of the State, while their visits to foreign shores will help to cement good relations between England and distant friends."

The Boer War

We have again to mourn a lamentable loss of life attending a reverse suffered by Sir George Colley. It appears that on the morning of the 8th a force consisting of about 300 men of the 60th Rifles, six guns, and 40 King's Dragoon Guards left the camp in the Drakenberg Mountains, with the object of meeting a convoy expected from Newcastle. A company of the 60th, with two guns, was left upon an eminence commanding the passage of the Ingogo River, and the rest of the force, crossing the stream, began the ascent of one of the many winding and rugged ridges lying between Laing's Nek and Newcastle. Whether or not Sir George Colley was surprised by an unexpected appearance of the enemy we have no materials for deciding, but, when he had advanced no more than a mile upon his march, he appears suddenly to have been driven to assume the defensive. In that position, harassed by a fire of the enemy that practically never ceased, he was forced to keep his men for a period of little less than twelve hours. Darkness alone, it seems, saved him from surrender or annihilation. It is impossible exactly to picture the position of the contending forces, but there appears to be only too much reason for concluding that in this action, as in that at Laing's Nek, all the advantages of favouring ground and of such shelter as was obtainable were secured by the Boers. Our guns were probably ineffective. They were so placed that, the fire of the enemy being directed upon them at short ranges with great precision, the gunners, one after another, were shot down, and the serving of the guns had at last to be done by men of the 60th Rifles. The artillery officer in command, we are told by our correspondent, an eye-witness of the battle, was killed early in the action. Towards sunset, Lieutenant Parsons, the second officer, was wounded and disabled. We may imagine that the nature of the ground precluded any effective action of our small force of cavalry, for though we learn from our correspondent that Major Brownlow, of the King's Dragoon Guards, with forty men, was actively engaged on all sides of the plateau held by our troops, no man of the King's Dragoon Guards is returned in the list of killed, and one only is in the list of wounded. At 9 in the evening the retreat began from this scene of disaster. At what hour the wearied survivors of the shattered force attained the safety of the camp they had left in the early morning we are not told, but the men can have been under arms for little less than 24 hours, nearly 12 of which were spent under exposure to a fire of terrible fatality.

THE BANDA ORIENTAL.

"A people which violently pulles down constitutional Governments, and lives quiet under despotism, must be and ought to be, despotically governed."
MACAULAY.

Constitutional Government, what is it? It is one thing in one country, quite another thing in another; just as the Constitutions differ, so do Constitutional Governments. The Constitution is the established law of the State, whatever that may be. Constitutional Government is the reign of law. Constitutional Government has been tried in the Banda Oriental, tried as an experiment, in all cases miserably failing; tried under Berro in 1862-63, tried under Ellauri in 1873-74, tried again last year under Vidal. How Berro failed, how Ellauri failed, are matters of History; that Vidal fail also is not yet matter of History, but soon will be if the signs of the times are any safe basis for prophecy.

The fall of Berro brought Batlle into power, ruling neither constitutionally nor by the Constitution, but avowedly by and for his own party alone. The fall of Ellauri brought Varela and the 'año terrible.' Tired of all this anarchy and mis-government, the Banda Oriental tried a fresh experiment, despotism. A clever soldier arose and offered her peace, she took him at his word, and he kept his word to her. Under his rule there came a time such as the Banda Oriental had never known, such as had never yet been written in her short history. Three years of peace, in which robberies were rare, murders rarer still, in which peaceable men ceased to carry arms, and men-of-war did their duty, using their arms only to enforce respect to law. In which men worked with a will, each man at his daily avocation, knowing that there were none to take from him the guerdon of his labour as there had been in years gone bye.

Than came a pause in the rapid decadence of the material interests of the country, and some even began to speak hopefully of renewed prosperity in no very remote future.

All this time the Constitution was in abeyance; no deputies of the people met at stated times to discuss measures of Government; the Press was nominally free, but accepted the situation, and ventured upon no sharp criticism on the steps taken by the rulers of the State; men even in their own chambers talked but with bated breath of politics, or whispered mysteriously to each other of men obnoxious to the powers that were, who ever and anon disappeared, and concerning whom no open enquiry was made. The Banda Oriental was quiet, comparatively prosperous, but her liberties were taken from her. She was crushed under the iron heel of a despot. Then her stern ruler gave her back her liberty and her Constitution, and, after a short trial of this new regime, shook the dust from his feet and left her, saying that she was ungovernable. Is it so? Is his fiat concerning her correct? She has had now some months of Constitutional Government and of liberty, and what is the result? Propositions requiring prompt solution are before the Chambers, propositions which would have found their solution after a few hours' quiet talk and consultation in an ante-chamber, during the rule of the late Dictator. Senators and Deputies, who are paid, not for the work they do, but for the time they take in not doing it, find no solution possible, and prolong their sittings throughout the year, realizing the dream of our great caricaturist, of 'how not to do it.'

Again, subordinate posts under Government are given to political partizans, efficiency for the post being a matter of no moment, and tried officials are turned away into penury and want.

Again, contempt for law and Government is spreading through the people; crime has once again a fair chance of immunity from punishment, and the most honest tradesman looks upon smuggling as one of the ordinary incidents of a commercial life.

And—most ominous of all—a zeal for Liberty is displaying itself in the resurrection of clubs throughout the land, while those who don't join these clubs look on with covert sneer, and talk in no guarded tones of the exile of Yaguaron.

The end is at hand: Constitutional Government is again a failure; a revolution, with or without war and bloodshed, will soon decide the next form of despotism which shall rule the land, for despotism is not necessarily the rule of one man; it is not necessarily a dictatorship, though unconstitutional rule constantly tends to throw the supreme power into the hands of some one man who may be strong enough and unscrupulous enough to seize it.

Constitutional Government is again a failure, which may be accounted for in either of two ways First the Banda Oriental may be unfit for constitutional Government, and therefore must be and ought to be despotically governed; or the present constitution of the Banda Oriental may be unsuited to the genius of the people. We are inclined to believe the second solution of the problem to be the true one. The framers of the present constitution of the Banda Oriental were theorists with little or no practical experience of Government. Their work is in its way an exceedingly good constitution, and may probably work very well a hundred years hence, when the people have grown up to its level, but is not now and never has been at all adopted to the idiosyncracy of the people, and is thus most eminently inefficient for all practical Government.

The rule of ex Dictator Latorre was a practical refutation of his words when he left office 'my countrymen are ungovernable; 'he governed them very well during his 3 years' dictatorship, and a constitution which should strengthen instead of tying the hands of the chief executive officer of the State, would find them equally amenable to the rule of a man of much less unscrupulous energy.

LATEST FROM MENDOZA.

To the Editor of the *Standard*,
Dear Sir,

Since my last advices no news has been received here from the frontier line, as far as I can learn, though several most extraordinary reports have been put into circulation by parties evidently maliciously inclined. In this instance, certainly, we may presume that 'no news' is almost equivalent to good news, as the news received from Chile of the descent of large bodies of Indians, in the direction towards the Neuquen frontier line, make it clear that the forces under the command of Colonel Ortega have their enemy in pretty close proximity and will, no doubt, sooner or later, give a pretty good account of him. Should he find himself obliged to cover any great extent of frontier he will be short of troops, for the assistance sent him is far from being sufficient even to make up for the losses he has already sustained.

Not having seen anything of the Carnival festivities I cannot give you any account of them; however, I am assured they were for Mendoza unusually lively: at all events, they seem to have passed off with great order, very little noise and free from disturbance. The masked balls at the theatre have not been a great success, and it is even wonderful a party should have been found to undertake them, in the face of the fact that a sufficiently numerous class does not exist here for the support of such entertainments, and the majority of those who spend their nights there were much better at home in their beds. For Sunday next the 'entierro de Carnaval' is announced, the Corso forming in the Plaza Cobos, and starting from in front of the theatre The little square called Cobos is the most central one in the commercial portion of the town, and is now undergoing some considerable improvements. The centre has been selected as a site to serve as a clock-tower. The clock, which had been ordered from Europe, is already in the possession of the Municipality, and the building in course of construction promises to be a very graceful and ornamental structure, about 16 metres in height from its foundation, very solidly built, and said to be capable of withstanding the greatest of earthquakes.

The theatre, which is built on one corner of the plaza, is not a very imposing building, but still it adds to the appearance of the place, and it has as 'vis a vis,' on the opposite corner, the handsomest private building in the town, built by Dn. Daniel Gonzalez, of banking notoriety, and on another corner a stately edifice is rapidly rising into view, which is to replace the old San Francisco Church, so that Mendoza can boast the possession of two as handsome squares as any that are to be found in a town of its size in South America.

We have had great locust alarms, large crowds of them having been seen some few leagues off; but up to the present the threatened invasion has not taken place, and it seems they are not much to be feared for this season.

On the 23d or 24th of last month we had one of the heaviest falls of rain, accompanied by a great deal of wind, and winding up with a hail-storm, that have been seen here for many years: fortunately it was not of long duration, nor even the hailstones of sufficient size to do much mischief, so that beyond the rooting up of some trees, and the loss of a certain portion of fruit, no great damage has occurred.

We seem to be mending here in many respects: people are gradually awakening to the prospect of better times, and one actually hears the intended immigration movement spoken of with admiration, a circumstance without precedent in this corner of the world, where the term 'gringo,' understood in its most offensive sense, is applied without distinction to all foreigners, who from time immemorial have been looked upon here rather as a nuisance to be endured, and certainly not a visitor to be welcomed and desired.

STATE OF IRELAND.

The *Times* publishes the following interesting chapters on the estates in Donegal and Sligo:—

The Conolly estates were once the finest in the north-west of Ireland: one portion, between Bendrousebridge and Belleek, was seven miles long and two wide: the Ballyshannon and Park-hill properties were held direct from the Crown. The management was formerly of the the old-fashioned, free-and-easy type; rents were low, they had not been advanced for 50 years, were irregularly paid, and never pressed for. On many townlands, especially round the coast, sub division and sub-letting and the introduction of squatters unchecked ran to a ruinous extent. Forty years ago Colonel Conolly vainly endeavored to reduce this over-crowding and double up his small holdings. He is stated to have built 1,000 slated or well-thatched houses, or contributed £10 to tenants who would put their houses in decent order. The widows throughout the wide estate had an annual payment of 40s. or 50s. each, and rent was seldom asked from them. Throughout all his difficulties Colonel Conolly never withdrew these bounties. Under the able management of Mr. Alexander Hamilton, the farms were squared or striped. Tenants were never turned out, and, without charge, enjoyed the privileges of turbary and seaware. For 1s. a-year as much turf as the family required was cut, and little restriction was placed upon selling turf. But horse-racing and gambling brough serious difficulties. Running the American blockade is said to have sacrificed a quarter of a million sterling, and large portions of the Conolly property have been sold in the Encumbered Estates Court. They have fallen into very various hands and been most diversely dealt with. In more than one instance efforts were made to dispose of townlands to the occupiers, but, as most invariably happens, this was rendered impossible owing to the inconsiderable number of tenants able to pay down the required one-third of the purchase-money. In a few instances the previous rents have remained untouched. Not unfrequently they have been repeatedly raised, sometimes to much more than double their former figure. Consideration was not always shown to the industrious, improving tenant. Disregarding the fact that he or his father had made the fairly productive land out of worthless mountain or bog, the full occupying value was often put upon it. In the change of owners, careless, incompetent agents and unscrupulous, self-aggrandizing bailiffs, who have caused many of the land difficulties in Ireland, sometimes managed to secure for themselves or their friends farms or portions of farms for which small or no compensation was given to former tenants. There being no agreements and few leases, these small holders had to submit sometimes to unfairness and hardship Almost at any rate and under any conditions they cling to their holdings. Even with 40 years of national schools they have not learnt the importance of short agreements setting forth their obligations and rights. Clever enough in making other bargains, they show much unwisdom in those relating to land. Even where there was much overcrowding the new purchasers made few evictions. These would have proved costly and troublesome. Small tenants, besides, are more easily squeezed and usually insure a better percentage being made out of a land purchaso.

Lettermecaward estate, occupying 5,500 acres in the barony of Boylagh, on Gweebarragh Bay, was bought from Mr. Thomas Conoily, M.P., in 1867, by Charles Deazeley, M.D., of Pembroke, It comprised 239 tenants. The difficulty in satisfactorily dealing with such a sub divided property may be gathered from the fact that 161 of the tenants were rented at less than £2; 62 ranged from £2 to £5; ten paid between £5 and £10; only five were over £10 and under £20. The estate was striped, which is the first stage of evolution from the ruder state of rundale. Several lots of about 100 acres in sandhills, rough pasture, bent grass and rabbit warrens were held as common among from ten to twenty adjacent tenants; the rents were moderate, in some instances less than 2s. an acre; buildings and any other improvements have been done by the tenants. Although rents have not been much advanced, the people do not prosper as they should do, and last year furnished a large contingent of applicants for the several relief funds, Mr. S. Teevon, a solicitor, bought 2,051 acres of the Conolly estate at about thirty years' purchase; immediately raised the rents; the tenants rebelled. The difficulty was settled by arbitration, but arrears accumulate. M. Ebenezer Bustard seven years ago bought 10,000 acres—a very fine tract of land. Although he has not raised rents, there has been some indiscreet management, and even before the present agitation payments were not well met. Possibly there was disappointment among some of the well-to-do tenantry that they were unable to buy up their holdings. Forty of them, I am told, were ready with a moiety of the purchase-money; but the others being unable to find the means, the estate was disposed of entire. Mr. Thomas Dixon, soon after his purchase, doubled his rental; his tenants last year and again this year demanded a reduction of 25 per cent.; they got 20 per cent., and some rents are said to have been paid. Several townlands of the Conolly estate near Ardcra, so soon as the new owner came into possession had the rental doubled, some farms were tripled, Many of the rents on these townlands are exorbitant.

EDITOR'S TABLE.

St. Patrick's Day. We salute our Irish subscribers on their national festival. Each succeeding year sees Irishmen in the Plate more prosperous. A tumble in the European wool markets seems to have no effect whatever on the purses of our countrymen, who go on steadily buying up the best lands in the country and becoming richer and richer every year; aye, every month and every week. We hope Dean Dillon will take with him to Ireland a list of the Irish landlords in this country and the amounts of their annual incomes. It will save him the trouble of explaining to those wishing to emigrate that cows and sheep never refuse to pay the rent, even in the worst years, and that Griffith or any other man's valuation is unknown to these punctual paying tenants. By next St. Patrick's Day we expect to see the Irish residents in the Plate increasing considerably in number.

No rain yet, nor the slightest sign of it, although we have still faith in the prediction of a subscriber, that it will rain on Saturday morning. The water-carriers are making fortunes and praying for drought as hard as the rest of us are praying for rain. Up to the present the 'aguateros' have decidedly the best of it.

The discussion that has gone on now for months in some of the papers respecting abuses in the Navy is so extremely bitter and dreary that we have always avoided the subject, but the *Nacion* of yesterday gives a bit of news that it behoves the War Office to enquire into. Our colleague asserts that one of the National gunboats has had her rigging changed, by the sole order of her commander, to that of a full-rigged merchant ship, making her at one and the same time dangerous and ridiculous. We may be excused (this not being yet a maritime nation) for supposing that an Argentine newspaper reporter knows far more about the flowers of rhetoric than he does about the 'cut of the jib' of anything afloat, be it bumboat or gunboat, and we trust that in this case there may be some considerable exaggeration and error, as, if not, it is a most serious business in more ways than one.

The National Government has given the country's defenders an extension of time for enrolling in the National Guard. The 30th of April will be positively the last day.

This being the Festival of St. Patrick, there will be Mass, and a Sermon in English, at the Merced Church, at 11 o'clock a.m. There will be a collection for the poor assisted by the Charitable Society of the Cross and Passion.

The Circulo Medico has started a philanthropic idea which we hope to see carried out, viz, to open 15 dispensaries in different parts of the city where the poor can receive medical advice and medicine gratis. Care must be taken, however, to avoid a repetition of the free railway and steamer passes abuse, when wealthy people proclaimed themselves 'emigrants' in order to travel free.

'Bolivian Sketches' have gone out of fashion here for ten years past, so we dont intend to attempt any on our own account, but we read in the *Gaceta Comercial* of Cochabamba that, when the news of the capture of Lima reached La Paz, a not inconsiderable portion of the inhabitants abandoned themselves to Bacchus and one family even gave a grand ball, to express their feelings on the occasion. Bacchus may have been invoked to drown the care caused by the news, but the ball puzzles us, unless it was given by a Chilian.

The mole and connecting branch railway to the Central Argentine line at Rosario are at last to be built. Messrs. Rodriguez and Co. have got the contract, which has been approved by the National Government.

There are three duck races in the programme of the Marina Club for Sunday next at Barracas. Duck and donkey races are equally amusing.

From what we read in some of our colleagues, it is sought to create an unfavourable impression about the opera company coming out for the Colon Theatre. This is worse than unfair. Common sense would suggest waiting till the artists are heard.

The *Reforma* of Mercedes says that the camps in Giles are in a terrible state owing to the drought. Many flocks have been driven away, and those that remain are dying fast. Mr Abadie's mill at Mercedes was sold on Sunday last to the owner of the Moreno mill for $405,000 m/c.

The news from the Interior is that the provinces of Catamarca and Santiago are calling out their National Guards and drilling their police in order to fight over some paltry question of boundaries which was submitted to the Government of Cordoba two years ago for arbitration, but the latter is still enjoying a 'siesta' over the matter. We were under the impression that Congress passed last session a stringent Act forbidding any more calling-out of National Guards, except by order of the National Government.

The decree reducing the postage on newspapers going abroad from 4 to 1 cent has spread mild sunshine in editorial quarters. Under the old rate a subscriber living abroad was severely mulcted, but one cent is a reasonable charge. The postage on newspapers for home transmission might also be reduced with advantage to the revenue.

It is a most decided sign of progress to see this country exporting *Cleveland* horses. Thirty two of these animals were exported to Barcelona some short time ago, from Messrs Eduardo Oliveira and Brother's 'cabaña,' and sold at capital prices. Now orders have just come out for another lot.

Another line of tramway to Flores and Floresta is spoken of.

The family of the late Viscount Rio Branco have sent to the Museum at Rio the Cross of Santiago of Spain, taken from the breast of Marshal Lopez when he was killed at Aquidaban.

A gentleman who went on board the Villarino on Tuesday, to see some families off, requests us to mention the following. There were three families on board from noon, and the agents told others to go on board at 5 o'clock. The table was laid for dinner, but at 6½ p.m. knives, plates etc were suddenly removed. On the reason of this being demanded by the hungry passengers, they were told that the agents had ordered that no dinner should be given to them, and that they should go on shore and find their own dinner. Those who could afford the expense at once did so, but the third-class passengers could not afford it and had to go hungry to bed. The greatest indignation was expressed by all on board at this treatment, which is all the worse as the first class fare to Patagonia is 800 m/c, a most extravagant charge for a journey of only 52 hours. Captain Spur, the commander, was absent at the moment, but the first mate and second engineer did every thing in their power under the unpleasant circumstances and kindly procured food for some of the ladies. This affair should be enquired into. The Villarino does not run for Government account, as many suppose; she is chartered from Government by the agents, Messrs Sanchez and Roca. They may look out for competition if this no dinner business occur again.

The annual pic-nic and sports of the employees of the Great Southern Railway will take place at Lanus on the 25th inst, (Holiday) and as usual the Company gives a free tram to convey the Employees and their friends to and from the field of operations; a capital programme will be provided and, we doubt not that those who are fortunate enough to be present will enjoy themselves to the fullest extent; to the usual and varied programme has this year been added a novelty in the shape of a Bicycle Race open to all comers, and intending competitors had better send their names to the committee as soon as possible. For the benefit of our friends of the different Athletic Societies, we can state that the usual Strangers' Race will not be omitted.

The well-known English tailoring establishment of Mr. George Stearn has been removed from 92 Calle Cangallo to 98 Calle Reconquista, whither, we have no doubt, his numerous fashionable customers will gladly follow him.

We are glad to hear that Mr. Victorica, chief of the Lands and Colonies Department, has recovered from his recent severe illness and is again at his official past.

We cordially endorse all our colleague, *La Tribuna Argentina*, says about the excellent management of the Western Railway, and still more cordially its suggestion that the trains between the termini should be 'expresses' and run at 36 miles an hour, stopping only at one or two intermediate stations. This reform is urgently wanted. Time is at last becoming money in this country. 36 miles an hour is a rather poor 'express' from an English point of view, but it is an improvement on the present snail's pace, and the country is going ahead so fast that it will soon demand the break-neck speed of the Wild Irishman and Flying Scotchman for all its mail trains.

Montevideo has got one good Customs Officer, Sr Dauber, the Collector, who, assisted by a friend, lately put the coast-guard to a proof. Both gentlemen disguised themselves, got into a boat filled with empty boxes, and attempted to 'run' the cargo. They were speedily seized by a coast guard launch, the crew of which were rather taken aback when Mr D pulled off his false beard and disclosed himself and gave the men two pats each as a reward, He tried to 'run' some goods on land another night and nearly succeeded, owing to one man being absent from his post, but another saved the honour of the Customs and was duly rewarded; the absent one being at once dismissed.

CRICKET.

To the Editor of the *Standard*.

Sir,

From the announcement in the *Standard* yesterday, I naturally expected a real criticism, but it has turned out to be the old style of thing: if you don't care, or can't do the thing yourself, damn those who do. I presume, as your correspondent is so mighty in Cricket as to call himself 'Umpire,' he must be likewise in the Spanish language, since he finds 'various grammatical errors' in my little work. If he would condescendingly point these out, he would be doing a great service not only to me, but to the general public. If he does not, or cannot, I shall be able better to designate his letter in my next. This is the only point worthy of notice in his communication.

ON 'CHANGE.

March 16th, 1881

Patacons	29.10
Cedulas A	94½
National Bank Shares..	78⅝
Bonos Provinciales	1½ premium.

The gold market opened under the haze of the loan and ruled throughout the day very weak; prices for cash began at 29.15 and closed at 29.10. On the other hand gold for the end of the month opened at 29.05 and closed at 29.10. People showed great desire to sell on time, and large sales were made for the end of April at 28.95, closing at 28.85. Sales for September and November at 28.70. The sales of the day amounted to 502,625 pats.

Cedulas ruled quiet; for cash at 94½, for the end of April at 94.

National Bank Shares are the great subject of speculation, and we note new hands at the stock almost daily; the market opened very firm, but under the pressure of 1,320 sold for end of month prices closed rather feeble at 78⅛ having opened at 78¾. For the end of April one sale at 79.

Bonos Provinciales have again advanced and closed at 1½ premium.

It was whispered in the market yesterday that rather better news had been received from Europe about wool, but telegrams were received to-day from Antwerp and Paris, which gave the same unfavorable state of the markets; nevertheless, in the Plazas this morning there were very free sales made, and some very good wool in the South Market sold over 100 m/c per arroba.

The auction sale at Baltar & Quesada's inaugurating their magnificent mart was indeed the business of the day; vast as is the establishment it was more crowded than Colon on a gala night; we saw Count D'Amelot, the much esteemed French Minister, and most of the leading city merchants occupying the chairs; the auction was, perhaps, one of the most crowded we ever attended, and the animals offered were splendid. A prize bull reared on Mr Church's estancia attracted the chief attention. We really did not suppose that this country yet could produce such animals, but the country is marching in seven league boots. We give at foot the result of the sale: it speaks for some of the best interests of the country to see a cattle auction drawing such crowds.

It was rather generally said on 'Change about 3 o'clock that at last the railway loan was concluded, and hence the gold market ruled so very weak.

Messrs Guillermo Gowland Co.'s great sugar auction at the Barraca de Peña yesterday was very largely attended, and the bidding brisk. As, however, all the sugar is not yet landed, the auction had to be postponed.

Another great proof of the steady value inside lands are taking was the sale yesterday by Messrs. Baltar and Quesada of the well known estancia La Noria, in Canuelas. In former years these lands were considered only valuable as sheep lands, but to-day they are required for lino, wheat &c. The bidding was very brisk and ran from 606 m/c to 1030 m/c. per square, at which price it was knocked down to Don Rufino Varela, who well knows the value of such lands and their capabilities. The auction is indeed most significant, and shows how necessary it is for farmers who own inside lands to purchase and wire-fence outside camps without delay, as in a few years all these inside lands will be under the plough.

The well-known brokers Marcelo Trobbo and Co. have sold the Cardiff cargo of coal ex Tre Sorelle: 840 tons coal at 10½ pats. on board. Coal rules very firm and is retailing at 12 pats.

The purchase of the Bay of San Blas has given rise to much conversation; it is said to be one of the finest bays on the coast, and capable of admitting vessels of three thousand tons burden.

The gold market at afterhours ruled dejected; large sums on time were sold at 29.05 for end of month, and the market closed with sellers over. For April large sales made at 28.80 and also sellers over. In fact, when the bell rang 4 o'clock, there was a stand-from-under feeling.

Exchange rules at 49⅜ and bills passed at 49½; on Paris 5.22-23.

Chevalier Pollinini, the talented manager of the Italian Bank, has left for a short sea bathing trip to Montevideo; he will be up at the end of the week.

Freights rule firm; 1,200 bales engaged today for Plato for Antwerp at 30s and 10 o/o; she sails direct on 26th. The Horrox leaves on 21st for Antwerp quite full. There is much more activity in exports, and freights are rising. Messrs Bouwer Story & Co. have placed on the berth for Marseilles the Spanish barque Catalina and have nearly all her cargo engaged at 50 francs for hides and 15 for bales and 10 o/o. She has still room for some more cargo.

At 4 o'clock the news on 'Change about the loan was that it was at last closed firm with the Societe Generale de France, one of the first banking companies in Europe at 80½ firm.

A new line of steamers from Trieste to the Plate is announced, owing to the large number of emigrants flocking from the Interior to that port for shipment to the Argentine Republic.

This was a day of unusual business, pleasure, excitement and amusement. The inauguration of Baltar & Quesada's splendid auction mart called away crowds from their ordinary avocations, whilst the auction sale of the Cerrito estancia at Bullrich's was the 'rendezvous' of the greatest capitalists and real estate brokers in the country. Then the loan business at the Government House, which has hung fire so long through the great inexperience of our public men in such matters, and who with a view to secure for the country the best and most advantageous bids reduced the business to a species of loan auction, much to the annoyance of some very first class and desirable people who had no other course left than to withdraw their offers. President Roca, however, took the matter in hand to-day, and we understand this afternoon the business was closed. The intense heat in the middle of the day was insufficient to keep people from running about town on their affairs, and Bolsa; banks, auction marts and Government House, all were crowded. It is really astonishing the push there is in everything in the Plate, everyone seems busy, everyone with more than enough to do, and we suppose everyone going ahead.

The *Pampa* this morning gave very fresh data about the loan business at the Government House, and apparently on some authority stated that none of the bidders would improve their offer save Mr Lezama, who represents the Erlanger Bank, and who advanced his offer to 82 firm for the whole amount and free of all commission and charges, the Government having authority to draw at once at 90 days sight for a million sterling, and 90 days after to draw for another million sterling, the bonds to bear date April 1st and from that date to gain interest. The service of the loan to be in Paris by the Erlanger Bank. Our colleague in a very able article shows that with the gold the bank has in England, and one million sterling the Government draws for and must come out here, it will hold at least 7 millions pats. gold which is ample for the opening of the Oficina de Cambios, and that if the bank refuses to bring out its gold from London, then the National Government should do its business with the National Bank and deposit its money there. The article caused immense attention on 'Change, and was read by everyone.

It is indeed a matter of regret to us all the complete destruction by fire of one of the finest flour mills in the colonies; as yet we have received no particulars, but we believe nothing is left standing but the walls, and we suppose there was no insurance.

A large sale of horned cattle 'al corte' in the North is reported at $200. The owner, we hear, sells owing to the 'seca'. Another similar sale is reported; the novillos being taken out the cattle stands the buyer in $160 'al corte'. The sale of a large troop of novillos for saladero, Entre Rios, at 11 pats. is reported.

The Provincial Bank only discounted yesterday two millions currency, which is a very small amount.

To-day we had the pleasure of inspecting the surveys for the new railway from San Nicolas to Junin. We note that the line will run through the Dorrego, Cano, and other well known camps. It will cut through Mr M Murray's and several other Irish estancieros' lands out there.

LA ADMINISTRACION

We confirm our statement respecting the opinion in well informed circles about the probable opening of the Oficina de Cambios this year, or early next. The consolidating of the debts due by both Governments to the Bank will put it in a strong position, and as for the balance of trade, everyone who knows anything at all of the market knows that for the last few years it has been steady in favor of the country.

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date February 10th, 1881, is important:—

Sheepskins—

The demand has been light as usual, and the market has ruled dull.

Sales only 18 bales.

Stock, 1,007 bales.

At the public sales held in Bordeaux from the 2nd to 4th inst. 5,494 bales were brought forward and only 1,525 bales sold at a decline of 10 to 15 cents on prices paid previously by private contract.

Hides—

The market remains fairly active, but prices, if we except those of really prime hides of which our stock is small, continue tending in buyers' favor. Owing to slaughterings being so much delayed in South America, arrivals have been insignificant, and our stock is undergoing a certain diminution in consequence.

This circumstance may possibly contribute to a certain extent towards maintaining prices at their present height, notwithstanding the very unsatisfactory position of our continental tanneries, which apparently need lower prices of the raw material.

The only fact worth a special mention which happened during the course of the fortnight under review is the purchase of about 4,000 light saladero cows, 14-20 kilos, at fs.62-65 for export to the U. States.

Killings in South America on 31st January only amounted to 103,000 against 407,000 head at the same time last year, but the general opinion is that total killings though unusually late this season, will not give a deficit as compared with those of the previous season.

Tallow—

The tone of the market indicates considerable strength particularly as regards available merchandise. Beef has been paid fs.89½ and mutton fs 88; and owners now ask a further advance of one to two francs.

Sales, 603 pipes, 46 hogsheads beef, and 112 pipes, 40 hogsheads mutton.

Stock, 110 pipes, 149 hogsheads mutton, and 708 pipes, 200 hogsheads beef.

The mails from Brazil bring the following:—

"March 4th—The English Bank and the New London and Brazilian Bank adopted today the following rates: London 21, Paris 451, Hamburg 559. The Banco Comercial did not draw. Limited transactions in private paper at 2½-¼ on London and 446-448 on Paris. Large sales of sovereigns at 11$470, 11$460 and 11$450 cash.

"The suspension of Messrs. Charles Spence Sons & Co. of Manchester and Rio de Janeiro was announced on the 24th ultimo.

"At a meeting of the creditors of Messrs. Charles Durham & Co. of Manchester, London and Rio de Janeiro, held in London, a composition of ten shillings in the pound payable by four instalments, was offered and accepted.

"F. Clare Ford, Esq., Her Majesty's Envoy to Brazil will leave for England per steamer Neva on the 11th of this month, thence to assume the duties of his new position."

LATEST OF BRAZIL.

Mr Robert James Shalders has been named British Vice Consul at this port. (Rio)

It is said that the Government has approved the measures adopted at the late Paris Congress for the protection of industrial property.

In a letter to Capt. Thomas Bailey of the American barque Adelaide, dated August 11th, 1880, the United States department of agriculture acknowledges the receipt of some Liberia coffee plants, and samples of cotton seed, forwarded by John Steele, Esq. of this city. The coffee plants were in excellent order, and will be thoroughly tested as to their adaptability to cultivation in the U. States.

According to a statement concerning the official savings bank of this city, published in the *Jornal do Commercio* of the 13th inst., the withdrawal of deposits during the year 1880 exceeded the receipts by 1,506,250$239. The interest paid on deposits amounted during the year to 502,580$138. The balance remaining in the bank on the 31st of December was 10,238,340$670, against 11,142,810$762 on the corresponding date of 1879.

The Government has commissioned Dr Paula Freitas, the architect of the Typographia Nacional, to proceed to Europe for the purpose of studying college architecture with reference to plans for the new medical college on Botafoga bay. The corner stone of this college was laid on the 12th, but nothing more will probably be done until Dr Freitas' return, and until he shall have fully digested all the various styles of architecture in Europe.

On the 19th instant at about 5 a.m. the police on duty in the neighborhood of the Praca das Marinhas received the information that a boat with jerked beef, stolen from a vessel in the harbor, was alongside the wharf and about to land its spoils into a warehouse there. The policeman Paulo Fortunato de Oliveira at once entered the boat with the intention to arrest her crew but no sooner had he done so when the latter rowed off, taking him along with them. Chase was given immediately but, helped by the fog, the fugitives escaped and have not since been heard of. It has been ascertained however that, being embarrassed in their flight by the policeman in the boat, they threw him overboard and he was drowned.

A scientific society at Vienna recently offered a prize of a hundred florins for the best solution of the problem :

What is the reason why a dead rabbit weighs more than a live one ?

In less than a month 352 answers were sent to the President of the Society and the reasons given therein for the solution of that problem were all more or less plausible.

When, however, the prize was about to be given somebody thought of asking the president to ascertain first the exactness of the opinion emitted in the problem. A live rabbit was sent for, weighed, killed and re-weighed, when it was found that —the two weights were exactly the same!

The Government has conferred the grand cross of the Imperial Order of the Cruzeiro on President Grevy.

The apparatus for lighting the Campo da Acclamacao by electric light has been ordered by the Government.

The number of passengers transported by the Sao Christovao tramway line during the year 1880 was 8,460,377, against 9,440,112 during the year 1879.

Decree 7983, of the 5th inst., grants a ten years' privilege to Joaquim Alves de Souza tor an apparatus of his invention for the manufacture of illuminating gas from turf.

Their Imperial Majesties intend starting on the 26th instant on their excursion to Minas Geraes, and to remain there until the end of April. They will be accompanied by the Minister of Marine.

Viscondesa de Figueiredo, wife of the well-known merchant and banker of this city, Visconde de Figueiredo, died at Petropolis on the 20th inst. after a short illness.

The new line of telegraph, which is to unite the capital with the Province of Ceara, will be inaugurated on the 26th inst. at 10 a.m., in the presence of His Majesty the Emperor.

The director-general of the telegraphs having recommended to the Government the system of transmitting the telegrams from the Central Station on the Campo Sant'Anna to the Post-office or Exchange, and vice-versa, by means of pneumatic tubes, the Minister of Agriculture has authorized him to carry out this improvement.

The Minister of Agriculture is said to be at work on regulations governing the reception of immigrants and their conveyance into the interior. All the details of their comings and goings will be regulated to the finest point possible—and then if they don't come it will be no fault of the authorities.

Their Imperial Highnesses Princess Isabel and Conde d'Eu will return to Rio in May next.

The presidency of the Junta de Hygiene, vacated by the resignation of Baron de Lavradio, has been conferred on Dr Joao Baptista dos Santos.

The export of cotton fabrics from Great Britain to Brazil during the eleven months ending November 30 last amounted to 217,075,300 yards, against 183,357,900 yards during the same period of 1879.

650 Cabezas casi puras Raza Durham,
Esplendido origen, notabilisimo estado. El plantel del Rodeo arranca del año 1862 y se garantiza por su dueño no haberse mezclado jamas.
Proceden de la celebre
Estancia Mari-huincul
del Sr. D. Matias Ramos Mejia

En nuestra casa, San Martin 51,
El Viernes 8 de Abril,
A las 2 de la tarde,

Venderemos al mejor precio y dinero de contado en uno o mas lotes y por cuenta del Sr D. Matias Ramos Mejia, este magnifico rodeo, compuesto de:

650 cabezas mestizas Durham, verdaderas Short-horn, que se pusieron en rodeo en un solo potrero, alambrado desde el año 1862, tienen por origen el toro mas escojido de la hacienda que vendio en esa epoca la afamada estancia del Sr Alfaro (de Canuelas) y nunca han sido servidas sino por toros puros de lo mejor, importados uno y otros de la renombrada cabaña de los 'Tapiales,' por cuya razon tiene este ganado la misma pureza de sangre, ofreciendo la ventaja que la paricion de los ultimos anos esta toda orejana.

Es precisamente de este ganado de donde se extrajeron las magnigcas vacas que constituyen el conocido y acreditado tambo en Ramos Mejia, que siempre han estado servidas por toros puros de lo mejor en Buenos Ayres y que dan 22 a 24 cuartas de leche sin apurarlas.

En el rodeo que se vende hay gran cantidad de estas lecheras.

Se ve, pues, tomando su origen y la fecha (1862) que este ganado es clasificado de mestizo por su propriotario, cuando sus cruzas las clasifican hoy de ⅞ y ⅞.

La venta se hara por todo lo que pisa.

Los dias Miercoles y Sabados se parara rodeo, y habra en la Estacion Maipu (F.C. del Sud) un brock a 4 caballos, que en 24 hora conducira a los a los interesados a visitar las haciendas hasta Mari Huincul.

Para el Gran Remate especial
DE
ANIMALES FINOS
De las razas, vacuno, caballar y lanar
Del gran Establecimiento
BLANDENGUES
Partido de Chascomus
Sobre la via ferrea del Sud
TREN ESPRESO IDA Y VUELTA
Que tendra lugar los dias 25, 26 y 27 de Marzo.

Habiendo vendido el magnifico y valioso establecimiento conocido por Blandengues, al Sr D Benito Lando y no habiendo entrado en esa venta los ganados finos de todas las especies, el propietario nos ha autorizado para proceder a su realizacion en remate publico, en lotes pequeños al gusto de los compradores.

Como las haciendas de que se trata son casi en su mayor parte finas y cuya venta demandara mas tiempo necesitandose como es consiguiento mas de un dia de remate, y en el deseo de que los señores que quieran asistir a el, puedan hacerlo con toda comodidad, hemos creido conveniente fijar la gran feria para tres dias, y en oportunidad anunciaremos el dia y hora de la salida del tren espreso.

El establecimiento Blandengues es celebre por sus crias finas y aunque nunca ha presentado sus productos en los remates que se dan en la ciudad.

Todos los criadores de la Republica saben que alli no se han encomi.ado dinero, ni se han ahorrado gastos para estar a la vanguardia de los primeros establecimientos del pais, y asi es que desde muchos años atras se han introducido alli los mejores animales que se necesitaban para el refinamiento de las razas tanto lanar como caballar, yeguarizo y vacuno de todo lo cual hay animales especiales, ya sean puros como mestizos.

Las especies que existen en 'Blandengues' se componen de majadas, tipos de cabaña en ovejas y padres puros Rambouillet de la Cabaña Imperial, hoy Nacional de Francia, majadas Lincoln servidas por carneros puros importados directamente de Europa, majadas finas Rambouillet, yeguas puras Normandas, yeguas pura sangre de carrera importadas de Inglaterra. En esta raza (la yeguariza) hay animales notables, y de gran merito, de distintas razas, servidas por magnificos padrillos puros introducidos directamente de Europa y lo mejor que ha venido al pais.

En el ganado vacuno mestizo hay animales de mucho merito, y en cuanto a lo puro, hay vacas, vaquillonas y toros de la raza Durham que estamos seguros no dejaran nada que desear. Al anticipar este aviso a los señores hacendados tanto de esta Republica como de la Oriental e Imperio del Brazil, lo hacemos con el objeto de que se vengan preparando para este ramate que podemos reputar como el mas importante que se ha dado hasta hoy entre nosotros de ganados finos de todas las especies.

Hoy que esta demostrado de una manera evidente que la riqueza de nuestra tierra consiste en la ganaderia, y que cuanto mas nos dediquemos a su refinamiento, tanto mas aumenta la riqueza publica y privada por el valor que toman las especies y los campos, nos parece oportuno llamar la atencion de los Sres. Hacendados, para que con tiempo se preparen a adquirir animales finos de toda especie nacidos en el pais o importados directamente, ya aclimatados y que no se ofrecen todos los dias en venta.

LA GRAN CASA QUINTA
Calle Sud America No 41

Conocida por del senor Don Juan Best Distante 1 1|2 cuadros al Norte de la Estacion del Ferro Carril, calle por medio con la esplendida Quinta del senor de Carabassa, una cuadra entera de terreno con casa, jardin, quinta, base de venta $ 250,000 m|c.

AD-CORPUS
El Domingo 20 del corriente
A las 5 de la tarde

Remataremos a la mas alta postura y dinero de contado, por orden terminante recibida de los senores Juan Best hermanos, a saber:

Esta gran casa quinta tiene una cuadra de terreno compuesta de 142 varas de frente al Norte por 120 vs. al Sud, todo cercado de alambre y circo vivo con paraiso por los cuatro costados y vereda de ladrillo. Toda la quinta esta cultivada y plantada, dividida por grandes calles, llena de arboles frutales de las mas escojidas clases, encargadas espresamente a Europa y Montevideo. Tiene quinta vegetal con tablones de alcahusiles, esparragos, frutillas, pimiento, etc.

Hay ademas un lindo jardin con arboles de merito, gran tablon de nardos, rosas y violetas en abundancia, invernaculo para camelias, con grandes plantas de 2 o 3 varas de alto, variedades escogidas traidas de Belgica.

En algunas calles hay cantidad de vinas en espal a de las clases mas selectas y parrales sobre zarzo de fierro.

El edificio que esta construido en una de la esquinas del terreno y 3 varas de la calle, sobre un cuadro de 25 varas por 22, se compone de 9 grandes habitaciones, parte de los pisos de tabla, parte baldosa, con cielo raso, dos chimeneas de marmol, un gran sotano, cocina, letrina con inodoro y otra para sirviente, despensa y 3 piezas altas en el centro del edificio, un gran patio embaldosado con un gran parral sobre zarzo de fierro el patio da sobre el jardin separado por una verja de fierro con porton. Al costado del edificio principal un galpon y cuarto techo de teja francesa.

Las caballerisas y cocheras con pieza de altos para cochero y el pasto dista 50 varas de la calle y estando cercada con enrejado de madera, tiene su pozo y gran pileta de material revocada en tierra romana.

Todo esto se vende por el infimo precio de $ 250,000 m|c.

La situacion de la propiedad no puede ser mejor, dista unicamente una y media cuadra de la estacion del Ferro-Carril, frente calle por medio con la esplendida quinta del senor D. Jose de Carabassa, al otro costado la quinta senos Heimendahl y por los otros costados otras quintas no menos importantes que la anterior.

Asi que la persona que busque una casa de campo, dificilmente encontrara otra con las ventajas que ofrece esta.

Titulos de primer orden.
